

EuroNanoForum
2017

Plenary 3

Investing in Nanotechnologies

22nd June 2017

Bridging the gap

Will public funding opportunities enable the emergence of new innovations to the markets?

Will it facilitate the materialisation of new business from research?

Do the budgets committed for nanotechnology match the *affirmed* important role that it plays?

“There is plenty of room at the bottom”

Richard Feynman [1960]

But the real issue is:

..... Is there plenty of funding opportunities at the bottom?

Speakers:

[Peter Dröll](#), Director European Commission DG Research & Innovation Industrial Technologies

[Lisa Friedersdorf](#), Director at National Nanotechnology Coordination Office

[Valeria Nicolosi](#), Professor of Nanomaterials and Advanced Microscopy at Trinity College Dublin

[Magnus Ryde](#), Partner at Spirit Ventures
