

CO-PILOT

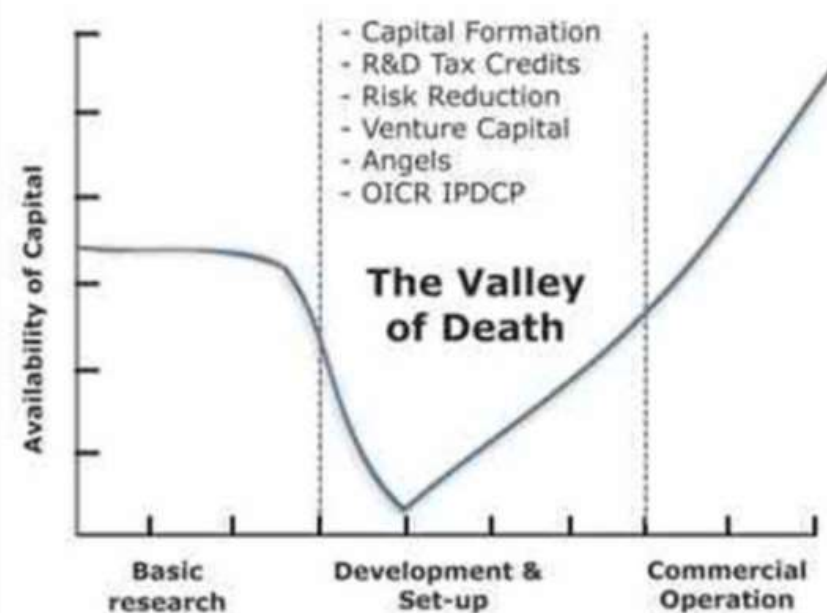

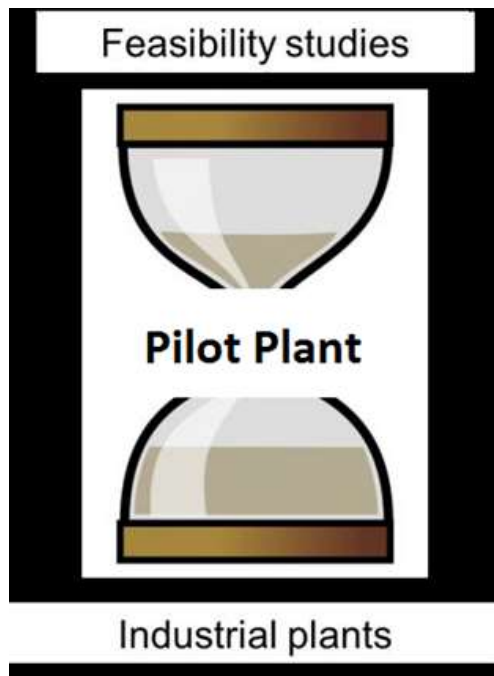

Open Access Colloidal Nanoparticles Pilot Lines

Aike Wypkema

Problem

- Many good basic ideas
- Lagging in industrialization and exploitation

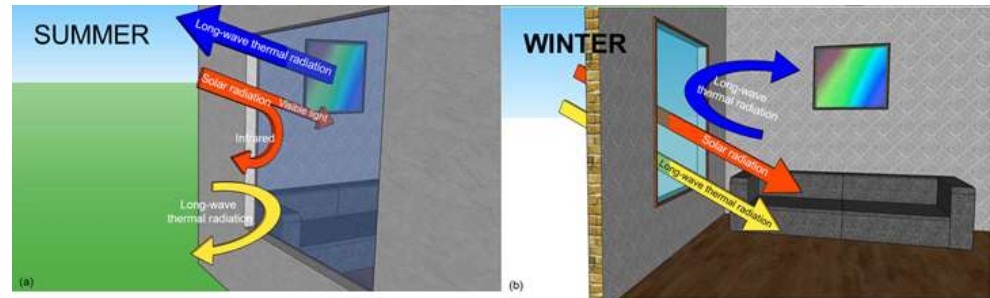

Solution

- One stop shop for high-precision colloidal nanoparticle production AND nanocomposite prototyping
- Integrated value chain approach

Focus

- Brightlands Campus, Geleen, NL
Sustainable building materials
 - Thermochromic glass coating or foil

- Fraunhofer/SKZ, Wuerzburg, D
Nanoparticle kitchen
 - Customer specific nanoparticle and nanocomposite “cooking”

THE NANOPARTICLE KITCHEN

Call to action

- Companies Join and use our pilots and expertise
Accelerate your product innovation and development
- Regions/
Countries/
EU Support (SME) companies to be able to join and use our pilots

Contact information

- Meet us at Booth 53
- or contact
